

Caring Neighbors, Inc.

CNI is a not for profit organization designed by residents of Bluffton who want to stay in their homes for as long as possible as they age with the confidence and security of knowing that help is available to them.

CNI provides services, support and resources that help residents live healthy and meaningful lives in their homes.

CNI can provide

- Transportation to doctor's appointments, grocery shopping or social events
- Assistance with minor household chores and maintenance
- Friendly phone checkups or visiting or respite
- Meals when recuperating from surgery
- Technical support for computer, DVD or TV
- Services are generally provided by carefully screened volunteers. When volunteers are unable to provide a particular service, residents may choose assistance from a list of reliable vendors whose services they may employ. Although we strive to serve as many neighbors as possible, CNI cannot take the place of a health care provider, assisted living facility, or skilled nursing facility for those requiring medical care or intensive custodial services.
