 Request for Tree Removal

Owner: _____ **Lot #** _____ **Date** _____

Address: _____ **Phone Number:** _____

Year Home Was Built: _____

Trees whose diameter is less than 6 inches may be removed without ARB approval. Tree size is defined as the diameter in inches at a height of 4 feet above the grade level. Any tree over 6 inches in diameter requires ARB approval. Trees must be tagged with red, orange or pink ribbon. Please submit pictures with your application if possible. Do not mark any other trees. The fact that a tree is messy or the owner feels the tree is an undesirable type is not sufficient reason for removal. The ARB may require mitigation for any excessive tree removals.

Beaufort County approval is required only if the home was built after April 1999 or if it is a species tree. The Beaufort County Zoning Department number is 843-470-2780. Any request to remove a species tree must include a letter from a certified arborist stating the reason for removal.

Please submit this application with any required documentation as noted above to the ARB. The ARB will schedule an inspection. Once inspected and approved by the ARB, a Tree Removal Permit will be issued.

DO NOT PROCEED WITHOUT APPROVALS. ANY UNAUTHORIZED REMOVAL SHALL RESULT IN A \$100 FINE PER TREE FOR BOTH THE HOMEOWNER AND THE CONTRACTOR.

REASON FOR REMOVAL:

- A. Tree is dead
- B. Tree is diseased
- C. Tree has significant damage – risk of falling over
- D. Tree is too close to house or outbuilding
- E. Tree is leaning in a hazardous manner
- F. Other

Type	Size	Reason	Location	Approved	Comment
